Collecting material: Books & Publications
Book written by Sue's former PT student and probably sent to Sue for her 90th birthday.
Ms. Hirt,

Thank you so much for your wonderful contributions to physical therapy. I will never forget your neuro-science classes and the difference we, your students, have made on so many lives.

I have thought of you often and wanted to send you a book. I wrote several years ago on child abuse prevention and family reconciliation. Last year, I could not make it to your reception. I hope your retirement years have gone well.

Bless you,

Demetra Baker, CRT
Class of '76
This book is dedicated to storyteller, Byron Collier, all children, their families, and the reconciliation process in the hope that children can grow empowered to provide their unique gifts to society.

LIVING HISTORY
by Ellen N. Wood and Kimberly E. Wynn
History is best told through the words of those who lived it.
PT “pioneers” recount their memories of the early years of physical therapy.

PAST PRESIDENTS REMEMBER
by Kimberly E. Wynn
"What was one of the most pressing issues faced by the profession during your presidency?"

THROUGH THE YEARS...
A look back in photos.

UNCONDITIONAL ON BALANCE
Talk about treating balance
patients under managed care—with
many visits and half the time.

HOW TO INTERPRET LAB TEST RESULTS
by Susan Polish, MT(ASCP), PT, and Steven M. Foyken, PhD
As patients live longer with serious medical conditions, the PT needs an understanding of lab test values and their implications for physical therapy.
